Group #37 Team Evaluation

List of Team Members: Mohini Dutta, Matthew James Bae, and Peter Windas

We are one of the teams in charge of planning and implementing the Student Expense tracker System as our semester project. As of so far, each member with the team has done a remarkable job in maintaining a roughly equal amount of workload.

Each of us retained responsibility in organizing the meetings, coordinating our workloads and communicating our ideas in a way that most benefited the progress of this semester project. Because of this, I do not have any specific complaints as to any one team member not pulling their weight.

And, I truly believe that with the way that we have coordinated everything, in terms of setting our weekly meetings and understanding our roles, we will not have any major issues in this area any time soon.
